Dear Mr. Bednar!

You are probably surprised, however, hopefully not annoyed about this email!
I am **paddler** and **environmentalist** from Austria, engaged for our last **natural rivers**,
Koppentraun , Riverwatch, living rivers, ...

80% of our rivers are already **ruined**, dammed, diverted ...

Please help to protect the last natural rivers!

Please **sign the running petitions** for our last **living rivers**:

at Untertalbach > <http://redir.ec/utb2> (1 Minute)
at Lieser > <http://redir.ec/lie1> (1 Minute)
at Mur > <http://redir.ec/mur1> (1 Minute)
de Danube > <http://redir.ec/don1> (1 Minute)
> please **spread** this text to **your friends**, the world!
> please **share this text** in networks, facebook, etc.!

What occurred with the Nature Jewel Untertalbach Gorge in Austria/Styria e.g.?

2007 the **Untertalbach Gorge** was **declared** as **Natural Monument**, this was the end for all power station plans.

2010 this **legal protection** has been **cancelled** dubiously! Why? To enable again the power plant project for political friends!

Please sign the Untertalbach **petition**: <http://redir.ec/utb2>

On request I'll send more infos. **Many thanks** for your help!

Kind regards from Austria,
